

Fall 2022 Proposed Public Safety Projects

We need a public safety plan for the Fall and Holiday season for 2022. While there is a plan in place to rebuild our police department, that effort will take 2 to 3 years. In the meantime, let's work together to help make sure our downtown is safe for our residents, our employees and our visitors.

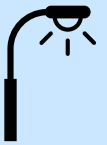

Sidewalk/Parks Clean-up Events

- Invite downtown businesses to participate in a sidewalk/downtown clean-up event.

Graffiti Removal Products

- Provide graffiti removal info sheet and materials to businesses upon request. They would agree to 48-hour removal of graffiti. Resupply monthly.

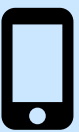

Lighting

- Light side street lamps from fall to spring. Also, work with DPW to light walkways around the Downtown Garage.

Downtown Ambassadors and Escort Program

- Revive the 2021 Downtown Ambassador Program. Include an option of an escort service for workers.

Downtown Business Phone Tree

- Create a phone tree of downtown business managers, staff, and others. If a staff member is being harassed or feels unsafe they can text the phone tree for help.

Training For Downtown Employees

- Offer a series of training options including de-escalation, retail threat response, self-defense, overdose prevention, and stop bleeding.

Meet the CSL/CSO

- Create a series of meet the CSL/CSO sessions to introduce downtown business folks to these new public safety team members.
